

CLS SERIES

H O M E A U D I O S E R I E S

System Features:

- Revised waveguide with taller midrange protective grille
- Improved high frequency tweeter response with copper shorting ring.
- Improved midrange power handling
- Dual pairs of gold plated all metal binding posts with jumper straps for bi-wire or bi-amp applications

High Power Cast-Frame Woofers

Custom designed woofers made with cast aluminum frames, exotic fiber impregnated cellulose cones and huge high temp voice coils submerged in a massive motor structure result in legendary CV bass output and dynamics!

Proprietary Integrated Midrange and Tweeter Waveguide

Computer optimized waveguide provides high sensitivity and dynamics with extremely low distortion. The geometry of the waveguides results in near perfect integration of the midrange and tweeter for seamless midrange and highs.
